Born: September 30, 1992
Nationality: Dutch

Current positions

PhD Student, Utrecht University, Netherlands

I am a PhD student in economic and financial history. My research analyzes political elites, the interaction between economic interests and politics, connections between politicians and firms, and politicians' investment behavior. My research is conducted within the framework of the NWO-project Investment behaviour, political change and economic growth in the Netherlands, 1780-1920.

Supervisors: prof. dr. O. C. Gelderblom, prof. dr. A. de Jong

Areas of specialization

Economic history, institutional economics, empirical finance
